Splendid Meeting Organising The Big Stampede

The organization meeting for the Strathmore Stampede was held in the Memorial Hall on Thursday night, and was the best meeting held for some years.

The attendance was large, and everyone was enthusiastic to put over the big stampede yet held here, and each and everyone was eager to do all possible to make a real success of Strathmore's big sporting event of the year.

President T. E. Wright opened the meeting and expressed the regrets of all that the popular manager, Leslie West, was unable to be present owing to his recent illness, but conveyed the good news that Leslie was making a good convalescence at Banff, and expected to be in within a short time.

The minutes of the last meeting were read and adopted.

The matter of holding a stampede on Wednesday, July 17th, was decided upon, that being the date allotted by the Cowboys' Contest Association, and will be the first stampede to be held after the Calgary Stampede, which makes it possible to select the world-known characters among the bucking horses, and the securing of the world's champion riders.

The election of officers and appointment of committees was the next order of business, and resulted as follows:

President—Thos. E. Wright.
 Secretary—A. A. Moore.
 Treasurer—W. S. Patterson.
 Manager—Leslie West.
 Assistant Managers—F. A. Cott and J. Van Weel.
 Executive committee—Geo. H. Jones, B. McKinnon, Spence Hughes, Geo. Koch, Homer Nelson, A. D. Strathmore and M. A. Rellinger.
 Lumber and Corral—Hector McGregor.
 Racing Committee—Charles Keeling, Spence Hughes and Nola White.
 Advertising Committee—Thos. E. Wright and A. A. Moore.
 Grounds Committee—Leonard Hill, B. C. Sorenson, M. C. Bellinger, H. Gray, Fred J. Dunn, Homer Nelson, B. McKinnon and T. L. Chamberlain.
 Program Committee—Manager Leslie West and the members of the advertising and racing committees.
 Finance Committee—A. D. Strathmore, W. Gray, T. E. H. Patterson and Harry Miner.
 Concession Committee—W. S. Patterson and James Gunn.
 Dance Committee—Fred Anderson, A. Labin and W. Springthorne.

Moved by A. D. Strathmore, seconded by George Koch, that labor be stippled to dig the post holes and put up the corral, and that the business men be assessed for the payment of that service. Carried.

Moved by A. D. Strathmore, seconded by Geo. H. Jones that the procuring of grounds be left for selection in the hands of the Grounds Committee, and that the name of Geo. Koch be added to that committee. Carried.

The meeting, after much discussion regarding securing new grounds, adjourned until Thursday June 20th, when the committee will make a report.

Texas Giants Win Two Games

On Wednesday afternoon and evening the Texas Giants, the team of "darkies" entertained good crowds at both afternoon and evening games.

The Giants, under the management of Red Whitman, have been having a most successful Canadian tour, and deservedly so as they are a mighty bunch of athletes.

Among their number is Marshall, one of the best catchers to be found on any diamond, William (not George) Washington, who is considered the Christie Matheson of the colored arena, Leroy King, not related to Mackenzie King, who is the acknowledged ruler of the colored world, and Wiley Clay, another classy pitcher.

The infield was fast, and had they been better resourced could have furnished some fast ball.

Eddie Credin pitched a splendid game against the colored boys, and had them guessing most of the time. He was ably supported by catcher Hess.

The local team were represented by Eddie and Jack Crillin and Bud Fortner, and assisted by Rockyford and Koonna players, and put up a good argument in the afternoon, the game ending 4 to 1 in favor of the Giants.

The evening game was not so close, the score being 16 to 6, but owing to a dispute over the rules, the game was forfeited to Strathmore.

Coming Events

The Saturday Night Hop in the Memorial Hall, June 15th. Three hours of snappy dancing, 9 p.m. to 12 p.m. Strathmore orchestra. Admission 50c.

Card of Thanks

Mrs. Field and family wish to thank their friends for the kind expressions of sympathy and the floral tributes received during their recent bereavement.

DISTRESS IN BLAIRMORE

A few weeks ago, a delegation from the local union supported the appeal of a certain Blairmore citizen for relief from the town council. Feeling that the case was a very needy one, the council voted \$50 for the relief of this family, to be disbursed \$20 per month, and \$30 for medical expenses. This is the list of grocery items in the order obtained: wax paper, sardines, dates, figs, grape fruit, tin peaches, rasp berries, lettuce, oranges, dates, grape fruit, tin pears, green onions, cabbage, sack sardines, bacon, more sardines, green onions, lettuce, celery, grape fruit, 3 pounds butter, rolled oats, hot-house rhubarb, 4 pounds butter, 2 pounds rhubarb lettuce, hot-house tomatoes, 1 pound butter, 2 pounds spinach, tin pork and beans, 2 raspberries, 2 pounds butter, peas, pears, 5 pounds butter, 2 pounds tomatoes, rhubarb, wax paper, wax, cucumber, jelly powder and diaper snaps. All the above were obtained between April 11 and 17, sixteen days. Just think of it, seventeen pounds of butter in sixteen days, to be consumed by a poor (?) family—Blairmore Enterprise.

OIL ROADS

MAINTENANCE OF OIL ROAD COSTS LESS

"SANTA FE, N.M.—A comparative study of maintenance costs on oil and gravel roads has just been completed by the statistical division of the state highway department, which shows the oil road to cost half or less to maintain than the typical gravel roads, says the highway bulletin.

"Figures to date on gravel road maintenance in this state, the bulletin shows, maintain a cost of \$250 per year per mile. This includes cost of equipment depreciation and repair. Without the latter item, a straight actual cost of \$200 per year per mile is shown by our figures.

"Oil processed surface, on the other hand, shows a gross maintenance cost of \$125 per year per mile. Without equipment charges this becomes \$100 per year per mile. A still greater saving in the oil cost comes from the fact that figures over a period of years show an annual loss by wind-blown sand on gravel roads. This loss becomes zero on an oil road as the material is sealed and is not susceptible to such erosional forces.

"The actual cost figures on the first six months of maintenance of the short Rio Puerco section of oil road shows the remarkable figure of \$25 per mile. This figure is not necessarily typical, but may be cited as a reasonable estimate of the cost. It is reasoned by the department that this cost will increase as the road grows older and has added to its other maintenance orders thousands of employees. It has surfaced or earth, those of shoulder maintenance, ditch cleaning, weed cutting and similar charges.

"From these figures it is easy to discern how an oil road will pay for itself in several years time, while gravel roads require public assistance for two cents per mile, for each mile traveled on the road.

M. D. Bow Valley Hold Regular Meeting

A regular meeting of the Council of the M. D. Bow Valley No. 219, was held in the Municipal Office, Strathmore on Thursday, June 6th, commencing at 10:30 a.m. The following were present: Reeve Chamberlain and Councilors Christensen, Phillips Groves and Peterson.

The minutes of the last meeting were adopted as read.

The Municipality requested the use of the C.P.R. ditching machine in improving the north ends of the roads between 31 and 35 and 35 and 36 21st, W. 4th.

The following were appointed Ward Inspectors for the Divisions shown: Divisions 1 and 2, O. E. Stangness;

Divisions 3 and 4, Ivar Christensen; and Divisions 5 and 6, L. Hill.

The report of the Medical Officer of Health for the past year was submitted to the Council and received.

Dr. J. W. Giffen was reappointed Medical Officer of Health for the ensuing year.

The Council and U.F.A. were authorized to use the grounds known as "Wyndham Park" for their picnic on July 1st, 1929. They were permitted to charge admission to the grounds where the picnic was being held.

The first prize under the Cooper Tail Race was won by W. Taylor, and the second to Harold Hamar.

It was moved that we ask the Dept. of Public Works to permit us to have a household cabinet with nine cabinets for food storage. The factory price of the lowest priced model, was then \$45.00. The lowest priced model now sells for only one fifth that price at the factory.

Passed The Million Mark

High explosive bombs crashed for an hour above the city of Dayton, Ohio, the other day as the one millionth refrigerator unit to be built by Fridg Air Corporation came through one of its many conveyor lines and emerged as a finished electric refrigerator, all ready to freeze ice cubes.

Beneath the bomb smoke, flags fluttered from roofs of the factories and office building. But there was no sounding of whistles to signal even a short halt work. With the plants far behind orders thousands of employees continued their work, while the steady reverberation of bombs marked the building of the millionth unit.

For many weeks three shifts of workmen had been tending the fifteen great porcelain enamelling furnaces, held unvaryingly at 1600 degrees Fahrenheit. For weeks and weeks other departments had held to the same operating schedule. In one day 83 carloads of finished product, were shipped from the factories. And on the day the millionth unit was completed the factories were still farther behind orders than they were two months earlier.

The millionth Fridgair, bearing a gold serial plate was shipped by airplane to Atlantic City to be a featured exhibit at the annual convention of the National Electric Light Association. Refrigeration equivalent to 120,000 tons of melting ice daily is the capacity of the one million units already

built, according to E. G. Biechler, president and general manager of the corporation. That is less than one million, but is sufficient to supply 9,600,000 families with 25 pounds of ice daily.

"There is a vast difference between the units of 1917 or earlier, as late as 1921 and our present models," said Mr. Biechler. "Back in 1922 there were but two Fridgair models, one a household cabinet with nine cabinets for food storage. The factory price of the lowest priced model, was then \$45.00. The lowest priced model now sells for only one fifth that price at the factory.

"Production of each quarter of a million marks a very definite period in development of Fridgair equipment. The first ten years was a period of small production and basic development. The second quarter of a million marked the period when the business was placed upon a mass production basis, and all fundamental problems solved. The third quarter of a million followed the introduction of the new Fridgair, with its quiet mechanism. The fourth quarter of a million will always be associated in history with the introduction of the Fridgair Cold Control, the greatest single contribution to household refrigeration since the building of the first box."

HANNAY'S LECTURE IN MEMORIAL HALL

On Monday night, June 10th, J. G. Hannay, Director of Agriculture Extension for the International Harvesting Co., Grand Forks, North Dakota, delivered his lecture on "Farm Management" to a very appreciative and large audience, under the auspices of the Strathmore B.P.O.

Mr. George Jones, in introducing the speaker, gave a very vivid description of Mr. Hannay's ability and experience, as a farm expert, stating that Mr. Hannay not only knew the theory, but was a very practical farmer in his management of the company farm.

In opening his address, Mr. Hannay dwelt very fully on the advisability of mixed farming, giving incidents in both Canada and the United States where, through this method, farms that had formerly been nonpaying propositions had become very profitable enterprises. "It is not wise," he stated, "to carry all your eggs in one basket. Frost, hail, pestilence and drought were among the reasons he gave for so many farmers today, after many years of farming, find themselves no better off than when they commenced operations. To illustrate the advantage of carrying stock as a guarantee against poverty, Mr. Hannay said that the farmer should use the best pure bred stock possible, as the performance of the cattle was a great factor in the success of this branch of farming. He told of one of the C.P.R. farm cows at Strathmore, in the last year had produced more cream than the average cow in Alberta, making approximately over one hundred dollars a month for its owners.

The next question of importance that Mr. Hannay discussed was the weed problem. In urging the farmers to get right after the destruction of this menace, he told of the thousands of acres of good land in both Canada and

the United States that today were rendered unproductive and absolutely useless owing to the rapid growth and nature of weeds such as sow thistle, musk thistle, etc. In some fields the sow thistle roots had become so dense that a plow could not be drawn through the ground. In again urging the farmer to get right after this menace and eradicate it, he told of a farmer that he knew, on being told that he had a small patch of quack grass in the corner of his field, probably about ten feet square, said that he had noticed it there, but that it was so small that he did not think of it. Today, after only two or three years, this same small patch of quack grass has spread so that it now covers approximately thirty acres, and the farmer is still waiting for it! Mr. Hannay then suggested ways and means of getting rid of the weed, by strictly recommending crop rotation, along with weed machinery, etc., and how to use it to best advantage.

Continually Mr. Hannay illustrated the wisdom of his remarks to his audience as he clearly illustrated the value of farm management, showing them the right and the wrong ways that are taken by farmers, and how to get the best results. Mr. Hannay was a pastmaster in the art of oratory, at no one time dealing with technicality to the state of boredom, but rather from time to time wit and humor, and his audience and kept them in an interested and humorous mood. Strathmore has indeed been very fortunate in having a day of the calibre of Mr. Hannay address, at no one time dealing with technicality to the state of boredom, but rather from time to time wit and humor, and his audience and kept them in an interested and humorous mood. SPORT NOTES

KEARNS SEEKS
TOMMY LOUGHRAN

PHILADELPHIA—If any agreement can be reached, do not be surprised shortly if Jack Kearns announces he is handling affairs for Tommy Loughran, light heavyweight monarch, and aspirant to Gene Tunney's throne. From an authoritative source we learn Kearns and Loughran are considering the move seriously. Dapper Jack wishes to pilot another heavyweight king. Loughran hopes to succeed Tunney, and is willing to discard his present laurels.

This does not mean Loughran and his manager, Joe Smith, have broken. The two are pals, but both realize Loughran must have a man possessing Kearns' tact in order to reach the top. At present various promoters, including the New York triumvirate, are snubbing Tommy. This tide may be changed with Kearns guiding the reigns. At least Loughran's close friends think so.

Loughran has great respect for Kearns as a manager. He showed this at Chicago, admitting he was fighting Kearns, the master mind instead of Mickey Walker, who never did have a chance. At present according to reports, the difference is not big. Kearns demands an interest in Loughran, while the latter only is willing to reimburse him on a salary basis.

If Loughran should be added to his banner, Kearns would have three champions. Mickey Walker, the mild dilettante king, and Mushy Callahan, synthetic Junior welter champ, also are in his stable.

GOONEY WAS FIRED

CHICAGO—Can a man think so fast and play so fast that he is a menace to baseball?

Should a shortstop be fired from a team two days after executing two thirds of a triple play because he was to years ahead of his time? Adrian C. Gooney, first and most famous of all the oldtimers of the Chicago White Stockings answered both of these questions affirmatively and that was why Jimmie Cooney, a stocky mite who was becoming a favorite of the fans in the early 90s, quickly packed up his trip and left from the baseball capital forever.

Really, Cooney's exit was glorious for a player who could outthink Bill Dahlen, the coming star of the next 10 years, deserves a gold star in the liturgy of astounding feats on the baseball field.

But let's get to the kernel of the mystery at once. For when a player, seeing "red" after pulling a fast one can think up a new trick that has come down the years, and by the time, taken get under the hide of such a tough and cautious old roster as Anson was in those days to the extent that he not only fired him from the team but threatened to "warm him off" the National League diamond, he surely must have "had something." And that was what Cooney had.

As related, two days before he had scooped up a torrid grounder touched a runner going to third, leaped on second for a forecourt of a man coming down fast and then whipped the ball to first in time to retire the batter. All over the country newspapers printed reports of that gallant play. Fans talked about it in pool rooms or around the grass fires in vacant lots—the origin of the "hot stove" league.

Here then was the situation: Chicago was in the field and they were belting old "Willie Bill" Hutchison hard. There was a man on third, another on first when a fast grounder whizzed down deep in Cooney's territory. He was on it like a flash, but too late to force the man going down to second.

The batter was speeding to first and the man on third moved off about ten feet, waiting for Cooney to throw to first; he was almost sure to beat the relay back to the plate.

But Cooney had an inspiration. He started his throw, his body and face towards first base. And low he did throw—but not to first. He let the ball sail to third while he was set and pointed to first. He had his man caught flatfooted. But the usually alert Dahlen was fast asleep. He wasn't even looking, and the ball hit him square on the forehead and bounded clear to the stand—result three men scored. Anson was in a tury.

"You bamboozled little fool—what do you mean?" he roared. Cooney, red with rage and with because Dahlen had missed the play, roared right back in Anson's face:

"You flat-footed fat-head! I played it right; that no good pet of yours was too dumb to get me," he said.

Calling Anson a fathead was less majestic, contempt of court and double combination. Anson was speechless—and there was another record for Cooney out there on the West side. Anson called a substitute and sent Cooney out. He never went back, became a prosperous business man and he's still telling his grandchildren about that famous play that put him out of organized baseball. But the epithet lives on. When a man is dumb he is still called a fat-head.

BIG LEAGUERS SETTLING DOWN

With June upon us the quarter-way point has been passed in the major races and it will not be long before the teams settle to their actual paces, the stronger maintaining a place in the and the weaker falling to the lower stratas known as second division. So far the acknowledged strong teams, save the Giants in the National League, have been keeping faith with the dolesters. Conversely, the Boston Braves have been enjoying more success than their well-wishers hoped for and have been helping to do what overthrowing there has been done in the older organization. But they have begun to settle back in the realignment process.

On the other hand, the American League race is spreading at all times, three approximately rated from all the way, only Washington showing probably less than was expected. You can include the Yankees if you like, that depending on the way your sentiments register.

For a discussion of this kind it might be well to trade the facilities of finish at the close of business in 1928 National League—St. Louis, New York, Chicago, Pittsburgh, Cincinnati, Brooklyn, Boston, Philadelphia, American League—New York, Philadelphia, St. Louis, Washington, Cincinnati, Cleveland, Boston.

In the National, the Cardinals are finding a lot of much promise and power in the Chicago team. McCarthy has a strong attacking force and the Cubs have been acting much after the manner of the Yankees. With fair to good pitching, McCarthy's team has found the real balance in power with the old wallies, Stephenson, Cuyler, Hornsby, Wilson, Grimm and others have been managing the ball in lively fashion. What is more, the Cubs have been staggering along for several weeks with badly crippled catching staff, a condition with most certainly had its effect on the pitching. Gonzalez has now returned to duty, and it is reported that it will only be a question of time before Hartnett, who is a fine influence, and a good batter will be back.

The Cardinals were said to be low on pitching for the 1929 season, especially since some of the older heads appeared to be ready to retire on the other side of the hill. But Messers James, Sherdell, Alexander, and Mitchell have shown no signs of retiring yet. Besides, Manager Southworth has found another winner in Sylvester Johnson, who has been known as baseball's hard core ever since he was with Detroit, turned in two remarkable games in recent days. In addition to the starting class—usually depicts pitching forebodings for the time at least. And it must be remembered that the Cardinals can catch any of them in the game of pick. What with the Hales, Dentils, Bottomleys and Frisches!

BEYOND THE REACH OF THE LAW

Years ago Milwaukee had a funny little Dutchman named Stubby Stutz playing short. Bill Frier was an umpire in those days, and was in Milwaukee on the closing day of the season.

"The Brewers played a double header that day," relates Bill, "and at the start of the second game, I went out to umpire on the bases. As I approached second base, Stutz greeted me: 'Hello you frogfaced blind dash dash and a lot of funny symbols meaning strong words.'"

"Get out of here," I yelled, "and that will cost you \$25 a boot." "The hell it will," jeered Stubby Lou (name Secretary Lou Nalton) paid us off at the end of the first game and here it is in my kick. Goodbye and I hope some one like you between your blind eyes before the game is over."

"Of course the time was never paid and Stutz sat in the grandstand and laughed at me all through the game. I could have killed him."

Slats' Diary

BY ROSS FARQUHAR

Friday—Little Slim can past are house this afternoon all settled up and was not him what was the matter with him and he replied and red he was rushing home because they had a new babe at his house. Ma sat him what it was and he said it was a child of sum kind but so far he did not no weather he was a brother or a sister yet. Saturday—A tried to hawk mm out of a Xtry piece of Chishelm today at the dinner table but I failed very bad. Ant Emmy piped in and says, Don you see that the little nose people than bullets does. I answered back and said Will mckey so but I drather die with a stomach full of pie than a stomach full of led enny ways.

Sunday—Ant Emmy axually got to a Wice crack today. We had went to church and seen Mrs. Cory Blunt there with her sister. Ant Emmy now all about her and sed she had ben devored three times at lease and that when she was here at home why people looked about her as much as they did about the weather. Witch Cory seemed to be not to be caring nothing about.

Monday—Pa was evicted out of a Stag party tonite at Bob Hanib's, and after he had got dres and went Ant Emmy kinda smiled and sed Well Will I never see till now what a Stag party was. I all ways that it was a sort of a makeasake party or other to witch people went dressed like a different animal and eat.

Tuesday—Ant Emmy says she ain't never a going to vote sen. She voted for Mayor Shrimpton for the 1st time and he was elected but she says to this day she haint had a vied from no so she don't think he really appreciate what she done for him a a Wednesday—me and Slim had a bite today and believe me I got the best of it and him. Ant Emmy sed it was becuz I had the rite on my own side. The way it was Slim sed my pa was sent it to associate with hogs. I sed he was on then the tribble and I give him a office lick.

Thursday—And then again today I goes and have a nother file. This time with Vin. And when I finly floors him with a upper cut I was for joy I give him two or 3 extra for good measure and then the teacher from the Sunday School come a long and balls me out for hitting him when he is down. I wonder what she thinks I got him down for.

EXEMPT FROM INCOME TAX

The decision of the Exchequer Court, exempting Saskatchewan Wheat Pool from paying income tax on its commercial and elevator reserves will likely result in the Alberta Wheat Pool also being exempted from paying. This means a saving of approximately \$100,000 to the Alberta Wheat Pool. Judge Audette who gave the decision in favor of the Wheat Pool stated in his judgment that it was clear that these reserves were the property of the members of the Pool and could not be considered in any other light. This has been the Pool's contention all along. The reserves are allocated on the Pool's books to the members as, according as they have contributed. The total reserves of the three Wheat Pools are over 20 million dollars. Total Alberta Pool's reserves are \$5,400,000. The payment of \$202,000 has just been made by the Alberta Wheat Pool to its members. This payment represents the annual interest at 6 per cent. on the reserves' contributions up to the 31st of August, 1928. Another payment covering interest on reserves up to August 31, 1929, will be made during the coming fall.

Lowest Price in Frigidaire history

THE new Frigidaire represents the greatest value ever offered in electric refrigeration. It embodies every essential Frigidaire feature—including the famous Cold Control. It is offered at the lowest price in Frigidaire history—and with General Motors easy payment terms. It operates from farm electric plants or central station current. See it right away.

BRUCE ROBINSON ELECTRIC (Alta.) Limited CALGARY

HAS MARKET REACHED BOTTOM? CANADIAN TRADERS AGITATED — (Special to the Standard) (Copyright)

TORONTO, Ont.—For the most part prices moved downward on the Canadian exchanges last week and the low level of the preceding week was surpassed on Monday when security prices came down faster than ever before. Toward the end there was a firming of prices, but it was more or less a stabilizing of the lists at the low new level and, aside from a few issues, the recovery was fractional and nowhere near sufficient to wipe out the damage done on the opening day and the period ended with a good deal to be desired from a trading standpoint.

The question as to when the upward movement will be resumed has given way to the question of whether the markets have reached bottom, and the answer to the last is no more satisfactory than it was to the first. It was thought that the hammering of the lists received in the early days of May was quite sufficient to correct the position of the Dominion's markets, and it may have been, but the public has had its confidence shaken and is being swayed more easily than at any time since the bull movement commenced three or four years ago. It is pretty hard to sit around and see the accumulation of many speculators wiped out and at the same time shake off the atmosphere of gloom that has hit the street this week.

Prices are now down to a level that looked almost impossible a few months ago and there is no assurance that they will not go lower. Today the market could swing downward with but a slight push; all the resistance appears to have evaporated. The punishment meted out to traders on the long side of the market is such that they are ready to cry quits and the fondest hope of many speculators is to get out even or with the smallest possible loss. Perhaps the holiday from Friday to Monday will help.

The credit situation, dollar wheat in Chicago, slowing down of industrial operations in the United States, and everything else that could reasonably be used as an excuse for lower security prices was used by the bears to further their own interest. Generally speaking, traders in the Canadian markets lack experience and in declining market are at a loss as to what to do with the result there were many bargains picked up by well-seasoned industrial stocks to yield from 5 to 6 per cent., and when one considers the possibility of capital appreciation for the value of well-managed Canadian corporations this can be considered liberal.

One of the faults of the Canadian markets has been their lack of

breadth. Pretty nearly everywhere but International Nickel, Brazilian or Masey-Harris on margin at one time or another, and a reaction in any of the three brought with it forced liquidation of weakly margined accounts. Margin calls were sent out on Monday evening and the response was very good, but it was noticeable that the accounts greatly in need of protection included holdings of the above mentioned three, and possibly Ford of Canada. Declines in the balance of the list were not sufficient to disturb the others.

Today, with the start of another month, Canadian stocks have much to recommend them to investors. As is the case with an advancing market the pendulum swings too far in a declining one and shrewd buyers realizing this are always ready to step in. Those that make a business of investing their money have a good idea when the time is ripe and a large proportion of the present day buying is said to be for cash. The investment trust has become a powerful factor and with plenty of resources available are in the best position of all. The trusts use the utmost discrimination in the securities they purchase and their executives are well versed in the security markets. It is their business to invest their shareholders' money profitably and they are ever on the alert for opportunities.

The past two or three weeks have witnessed the publication of the reports of three or four Canadian trusts and the list of securities appended is evidence of the confidence they have in the Dominion. All have a large investment in Canadian securities and it is said they have increased their holdings following the break of a week ago.

The low level to which the Canadian markets have dropped might provide the incentive necessary to bring about a general firming of the markets if it were not for Wall Street. It is realized it would be useless to try to stage an advance that could not be sustained. Canadian markets respond too quickly to the influence of New York and until that market either straightens away or the Canadian exchanges decide to forget Wall Street and act on their own initiative it is almost hopeless.

Canadian securities in a great many instances have been oversold and, given encouragement, will bounce back to a level more in keeping with their intrinsic value. It will take time, however, as there are many stumbling blocks in the path of a resumption of the advance. The summer months are not expected to bring more than a settling of the lists and it may be the fall before any great improvement is experienced.

BARREN LANDS MAY BECOME RICH PARADISE FOR HUNTERS REINDEER TO POPULATE AREA

Edmonton, Alta.—Out into the "Barren Lands" of the North West Territories, last great paradise on the American continent of the naturalists and big game hunters, preparations are being made for an inward trek of many thousands of reindeer. Vast herds of caribou already roam the northern tundra and investigations made by the Canadian government, show that there is ample room in the wide spaces between Great Bear Lake and Hudson Bay for additional enormous herds of reindeer.

These will be brought by hand carts from Nome, Alaska, under the care of the Porcili brothers, experts in reindeer farming.

Major D. L. McKend, assistant director of the North West Territories and Yukon branch of the department of the interior at Ottawa, announces that the first invasion will start this year. Ultimately, it is expected to reach large proportions and to mark the beginning of a new economic era for the natives of the near-Arctic.

The Indian in Canada is a ward of the Crown but the Eskimo of the Barren Lands, Major McKend points out, is a free and independent citizen. As such, he must be cared for and the transplanted reindeer will bring him a permanent meat supply.

So far, the Canadian government has had great success in repopulating the northern wilds with animals. The buffalo, almost extinct a short time ago, is now flourishing. More than 6,000 animals were car-

ried into the spirit of the many receptions and celebrations with a feast not exceeded by any tourist on the coast? Incidentally, Lord Willington inquired after the ser-

vice of the first voyage of the west coast of Vancouver Island was made.

When Viscount Willington, Governor-General of Canada, and Lady Willington visited the West Coast of Vancouver Island on the inaugural cruise of the new Canadian Pacific steamer "Princess Norah" two new speakers were added for that far-flung corner of the Dominion.

It was the first time that a Canadian Viceroy had ever seen, and in turn, been seen on the rugged coast that is now looming as one of the nation's important industrial and tourist regions. Further, the arrival of the Norah brought the most luxurious passenger steamer ever to ply in regular service in West Coast waters, new to be the permanent run of the staunch little Clyde-built vessel.

The West Coast had decked itself in gala attire for the visit of the great white chief from Ottawa. Tremendous excitement prevailing among whites and Indians alike at the various ports of call. Local interest was heightened by the fact that their Excellencies came formally to the four main parties to the receptions and celebrations with a feast not exceeded by any tourist on the coast? Incidentally, Lord Willington inquired after the ser-

I Saw Last Week

PRINCIPAL CROWTHER making T. M. Wear smile as he contributed his minimum school tax, the first to reach the exchequer this year, which T. M. promptly deposited in the strong box kept by Banker Nichols. CHAS. KEBLING explaining to Ted Swetman how his mining operations are conducted at Drumheller, and Ted asked if it was very difficult to get into the coal business. "Go," said Ted, "last winter good to me," as he toddled off, making further arrangements for the Old English Fair, to be held Wednesday, June 26th. BOB ARTHUR getting the surprise of his young life when an automobile driven by a lady backed into his truck, removing one wheel, which Sid Tower and Gene Grant fixed up within a few minutes, and Bob went on his way rejoicing. W. S. PATTERSON passing Ernie White after a Sunday morning without making the property and being called to attention. JAMES SAUNDERS keeping himself out of mischief by carrying a new coal shed under the direction of C. W. Chase, who was doing all the talking, while Jim supplied the brains. CHARLES KEBLING making for a trip to inspect the mines from whence come the black diamonds which he peddles all winter. DON McRAY securing Fannie Skarup to get a square meal. PERCY PARISH taking a sun bath on the roof of the Hotel Leland Co., refusing to let "Blimie Bill" take part, fearing it might injure his velvet complexion. THREE LADIES holding a conference on Third Street corner, discussing everything from dishwashing to the uselessness of husbands in general. PROTESTANT meeting place for a Derby bacquet in 1929—maybe—but J. H. Vermont saw any other Dutchman to be invited. PERCY WRIGHT humming that popular ditty "How Would You Like To Be the Woman?" THE PETITIONERS who staked for the dining of Second Street, wondering when it is going to happen. "RIP McKECHINE in town on Friday and giving Jim Gannon some actual cock and bull yarns. ERNE WHITEHEAD explaining to a Calgary visitor why bees swarm. "Bane of women," remarks Ernie—"

Additional enormous herds of reindeer. These will be brought by hand carts from Nome, Alaska, under the care of the Porcili brothers, experts in reindeer farming. Major D. L. McKend, assistant director of the North West Territories and Yukon branch of the department of the interior at Ottawa, announces that the first invasion will start this year. Ultimately, it is expected to reach large proportions and to mark the beginning of a new economic era for the natives of the near-Arctic. The Indian in Canada is a ward of the Crown but the Eskimo of the Barren Lands, Major McKend points out, is a free and independent citizen. As such, he must be cared for and the transplanted reindeer will bring him a permanent meat supply. So far, the Canadian government has had great success in repopulating the northern wilds with animals. The buffalo, almost extinct a short time ago, is now flourishing. More than 6,000 animals were car-

ried into the spirit of the many receptions and celebrations with a feast not exceeded by any tourist on the coast? Incidentally, Lord Willington inquired after the ser-

vice of the first voyage of the west coast of Vancouver Island was made.

When Viscount Willington, Governor-General of Canada, and Lady Willington visited the West Coast of Vancouver Island on the inaugural cruise of the new Canadian Pacific steamer "Princess Norah" two new speakers were added for that far-flung corner of the Dominion.

It was the first time that a Canadian Viceroy had ever seen, and in turn, been seen on the rugged coast that is now looming as one of the nation's important industrial and tourist regions. Further, the arrival of the Norah brought the most luxurious passenger steamer ever to ply in regular service in West Coast waters, new to be the permanent run of the staunch little Clyde-built vessel.

TAXPAYERS FIND PROPERTY IN DANGER OF CONFISCATION

CHICAGO—Taxpayers of Chicago groan under the tax burden imposed by the presence of 31 distinct and independent local governments within the city limits. In addition there are semi-independent tax levying agencies. In Cook County, outside of Chicago, the number of separate governments total approximately 246, making a grand total of 417.

These bodies employ an army of 60,586 persons annually. They spend \$224,000,000 a year. Those in Chicago spend \$288,000,000 annually, while the country towns spend \$36,000,000. On top of carrying this enormous load, taxpayers must contribute \$12,169,224 every year toward their share of the cost of operating the state government.

Scenes of city Officials

The taxpayers also must turn in \$250,000 in funded debts, contracted by various agencies, and \$125,000,000 additional in unfunded debts. Ninety-one state officials, 97 sanitary district trustees, 46 city officials, 56 park commissioners, and 20 town officials are elected in Chicago.

A recent survey showed that the average amount of services extended for each dollar spent in taxes runs as low as 25 per cent.

READ THE WANT ADS

Friday evening last Mrs. Nell McDonald arranged a party of young people for her sons, Campbell and Murdo. Court whist was played on three tables, the prizes being won by Jean McGregor and John Garrett and Normal Ellis were a tie. The two then tossed up, which resulted in Normal Ellis winning the prize. Delicious refreshments were thoroughly enjoyed after which all spent a merry hour in tripping the light fantastic. Those present were Jean and Hector McGregor, John and Alice Garrett, Youngs Prince, Sylvia Philpotts, Helen Shrimpton, Louane Bower, Her Reilinger, Allyn Scheer, Norma Ellis, Campbell and Murdo McDonald. A very jolly evening was spent.

Mrs. De Witt has returned to home after visiting friends in Wait right for a few days.

Mr. and Mrs. Havel have leased Mr. Ray Prince's house, and will move in July.

Rev. Father Duggan has been in town for a few days, the guest of Rev. Father McAdam, and is being cordially welcomed by the members of the Sacred Heart congregation and other friends, who were pleased to see him looking so well after his serious illness.

Mrs. N. McDonald and Mrs. Nell White have completed a very successful fund for funds with which to furnish for the Manse of the United Church will be purchased.

On Sunday, Mrs. J. Wainstaff entertained about forty-two guests in honor of Miss Doris Peake, of Chicago, who is spending a week visiting relatives. A very enjoyable day was spent by all.

Dr. J. W. Giffen was a Carleton visitor on June 9th, and presented Mr. and Mrs. Ernest Dick with a fine baby boy.

Prospects for holding a Flower Show is decidedly encouraging. Last Fall the Canadian Legion gave the matter attention, and at the meeting on Tuesday night further consideration was given, and it was decided to hold a show, probably in August. The following committee was appointed: Mayor Shrimpton, Jim Dunn and A. V. McParson, to complete further arrangements.

The dance in the Memorial Hall on Saturday night was a very enjoyable event, and the Saturday Night Hop will be repeated again on Saturday night, June 15th. Strathmore orchestra, three hours of snappy dancing, 9 p.m. to 12 p.m. for 50c.

Local Jottings

Mrs. Gilbert Patrick left Tuesday for Lakefield, Ontario, where George Patrick is attending school. Later they will visit friends in Toronto and Toronto, returning to Strathmore early in July.

Mr. and Mrs. Sid Moore motored to Banff Sunday last.

One more week before the state of examination. Here's a toast: "Good luck to all the Strathmore pupils."

The U.F.W.A. met at the home of Mrs. Prout on May 30th. The two conventions were discussed, one at Dalmenod June 6th, to which Mrs. Ashley was elected delegate, when the meeting was adjourned. A delicious lunch was served by the hostess, and a pleasant social hour spent.

A special U.F.W.A. meeting will be held at Mrs. Wm. Hildon's on June 24th. Mrs. Schofield, of Crossfield and Mrs. War, provincial presidents, will be present, and will speak. It is hoped that everyone will make an effort to come and they will be pleased to have any visitors who wish to be present. Tea will be served.

Mrs. Waters, of Nanaima, is preparing a paper, to be read at the next meeting of the I.O.D.E., when the program will represent Canada and California.

Mr. and Mrs. W. M. Davidson returned to Calgary Monday, after having spent the week end in Strathmore.

During these lovely June days the Strathmore "Golf and Country Club" is proving an ever more popular rendezvous. The course is in pretty good shape. In the club house various pieces of new furniture are being added all the time, and is becoming a very attractive place to enjoy a social cup of tea and discuss the play after the game. Among those taking tea Wednesday last were Messrs. Van Tighem, Whiteside, T. Chamberlain, T. E. Wright, Perry, Nichols, Patterson, McFarland, Lambert, J. French, Downey, Chas. Cowell and A. A. Moore. At the ladies' golf competition last week, Mrs. A. Pierson won the prize for the first flight, and Mrs. T. E. H. Patterson won in the second flight.

The Secretary read a notice from the Calgary Power Co., giving notice of appeal against the decision of the Court of Revision, confirming the assessment on their distribution system. He also stated that he had written to other towns in this connection to find out what was being done there and their replies. The Company was appealing this assessment everywhere and a test case would be made up north before the Appeal Board to find out if it was legal—Okotoks Review.

Mayor Shrimpton and family were Nanton visitors on Sunday.

From Birks!

From Birks! Her joy and pride in her engagement ring will be more than doubled if she can make this happy exclamation.

And her fiancé's expenditure will be proportionately reduced, because the tremendous buying facilities of our firm assure maximum value for minimum price.

HENRY BIRKS & SONS Limited
JEWELLERS - MERCHANTS - CALGARY

The Canadian Pacific Railway is erecting a new clider loading facility to replace the wooden platform which has done duty for a long time.

The lake is being drained, and this year the Mayor is going to make a good job of destroying the weeds, so that it will be fit for bathing. In order to provide a sufficient water supply in case of fire, the water is carried by a new outlet to the dam on Railway Avenue and along to the pump house where an ample supply is stored in the new sump.

Ernie Whiteside is exceedingly proud of his crop of dandelions, which he maintains is the largest, and contains the finest specimens that he has yet been able to produce.

Mrs. E. Crossley is now visiting her daughter, Mrs. E. H. Walton at Clivale, Alberta.

Charles Keeling stated the Mercury mine at Drumheller on Monday, and was escorted through the mine by D. H. Sheldale. Charlie was delighted with the outfit for mining, and is more than satisfied with the product, and lost no time in closing for a supply for next winter. The coal must be good as Charlie is not an amateur in selecting the dusky diamonds. Quality comes first with the local coal baron.

Frank Sharpe was in town, on Tuesday. He is on his vacation, part of which he will spend in Calgary. Frank is now doing telegraph work in Saskatchewan, when not engaged with his saxophone or some other disturbing instrument of torture.

Mr. and Mrs. Joseph Hedlund and son, Harold, of Minneapolis, are visiting Mrs. Hedlund's parents, Mr. and Mrs. F. Beaz.

Mrs. Earl Anderson and daughters, of Clareholm, are visiting her parents, Mr. and Mrs. F. Beaz.

Mrs. A. P. Gray has as her guest for a couple of weeks, Miss McBurnie, from Saskatchewan.

Mrs. McGregor invited a few friends to tea Tuesday afternoon.

M. B. Hirtle is busy erecting a new garage for Hector McGregor to house his new super-ex car.

Frank Taylor, of the Royal Bank staff, who is acting manager at Gleichen, was a visitor on Sunday, straightening out the bachelors who are occupying the "Saints' Rest" on Third Street.

The Community Picnic, under the auspices of the Carleton, Dalmenod and Blind Creek U.F.W.A., which was postponed from June 8th, will be held at Wyndham Park, Carleton, June 14th, at 1 p.m.

The splendid rats on Sunday night brought joy to the hearts of the people for quite an area near Strathmore, ensuring the further encouraging crop growth.

Congratulations are being extended to J. A. Gammert for the excellent condition in which he has the east road, which is under his supervision, and the motorists with there were more Gammerts looking after the highways.

Major Miller, of Calgary, was in town on Tuesday, and inspected the school cadets.

The Ladies Aid of the United Church will meet at the home of Mrs. N. McDonald on Thursday, June 20th, at 8 p.m.

"Tod" Sweetman is as busy as one of Ernie Whiteside's bees, arranging for the Saturday Night Hop June 14th, giving three hours of dancing from 9 p.m. to 12 p.m. He is also advertising manager and general promotion agent for the 4th Old English Fair to be held in Lambert Park on Wednesday, June 26th. The balance of a twenty-four hour day he is giving to the Canadian Pacific Supply farm and his family.

Thomas Kilde, who has been attending college at Regina, is confined to the hospital in that city, after undergoing an operation, and his friends will be glad to learn that he is making good recovery.

ROSEBUD

The regular meeting of the Ladies Aid met at the home of Mrs. H. W. Brunner on Thursday last, twelve members being present. Committees for the bazaar were appointed, and other business attended to, after which a social hour was enjoyed, and a daily lunch served by the hostesses. The next meeting will be at the home of Mrs. James Walker, north of town, on June 30th. All ladies are invited.

Tickets are now on sale for the play "What Happened to Jones," to be in Rosebud Hall on June 21st. If you miss that you miss the biggest event of the season.

The C.W.L. will hold a strawberry tea in H. N. Jones' office on Saturday, June 15th. Come and get all the strawberries you can eat!

Mr. and Mrs. C. H. Comstock, accompanied by Mrs. J. Martin, returned to Edmonton on Tuesday last, returning Saturday evening. The object of the trip was to attend the Grand Chapter of Alberta O. E. S. While there they stopped with Mr. and Mrs. H. Summers, former residents of Rosebud.

H. J. Clark, Jr., returned home from the Calgary General Hospital Sunday evening.

The Husar ball team beat the "Wild Cats" of Deynon 7 to 5 Sunday afternoon.

Mrs. H. Austin has her sister and mother visiting her from Washington.

ROCKYFORD

Owing to Strathmore not putting in an appearance on Wednesday for the baseball tournament, their part of the schedule went rather flat, but Gleichen players were good sports, and were on the job. After the pickup game, the regular one was played, and some very good ball was played, but Rockyford's

the valley team proved too much for the Rockyford boys, and the score was 11 to 6 in favor of Drumheller. However, they all had a good time, and are looking forward to the return game here on Saturday, June 22nd.

Three carloads of relatives and friends of Mr. and Mrs. Black motored out from Calgary to enjoy a week and house party here, as there were several good singers in the crowd, much was one of the popular pastimes.

Mr. H. Ruppe underwent an operation on Tuesday, June 4th, in the Holy Cross Hospital, Calgary. Latest reports are that he is progressing favorably.

The first week of June has proven a joyful time for the younger children, there having been three birthday parties, and each one, judging from the hilarious shouts from lawns and porches, must have been the best ever.

A well attended baseball game took place at the local diamond on Sunday afternoon between Keoma and Rockyford Seniors. The score was close, and when Art Stanger made a second splendid hit with three on base, two scored, leaving the final 8 to 7 in favor of the home team.

The recent warm weather and warm rains are doing wonders to the fields and trees. The grain is about 4 inches high and showing splendid growth. Some of the trees in different parts were winter killed, but with these cut down, mother nature is doing her best to cover up the bare spots with abundant foliage on the trees left.

The Intermediate baseball team journeyed to Standard on Sunday, where a large crowd had gathered to enjoy the game. The Standard boys proved too much for them, and defeated Rockyford by a score of 11 to 4.

Watch for the Strawberry and Ice Cream Festival to be held shortly in town.

The wedding of Miss Margaret Kraft, of Alton, and Mr. Edward L. Brown, of Alton, on June 8th, at Mr. and Mrs. J. W. Kenworthy's of Rockyford, will take place at West Calgary Church at 4 p.m. Sunday June 16th. Rev. Gilbert, of Rockyford, officiating.

On Wednesday morning W. L. Parkinson, a miner from the Naamne mine at Drumheller, was killed in an automobile accident, and four others injured when their car overturned about two miles north of Rockyford. The car skidded across the road when Parkinson, thinking the driver was too close to the side, grabbed Starbuck's

STRAYED: BROWN CLYDE GELDING, branded on left shoulder, and on left thigh. Reward for recovery, Box 59, Rockyford.

Our Hotels

Hotel accommodation is one of the most important factors in the modern social scheme. In the past it has not always been simple to establish and maintain good hotel accommodation in a small town. Five years ago the average country hotel was, generally speaking, an uncertain, unprofitable business. Now, however, the licensed hotel is a very important detail of our Liquor Control Act, which has proven to be the most satisfactory plan that has so far been evolved on the North American continent, in dealing successfully with the liquor problem.

The same or less steady increase from the sale of a mild beer helps to carry the overhead on unoccupied rooms which remain always available to the casual as well as the more regular traveller. But in return, the privilege of selling beer the licensee must provide first class accommodation. His premises must be beyond reproach in every particular. By such a well regulated establishment a community is benefited as are also their travelling friends and neighbors, also strangers who come within their gates.

An unlicensed hotel in a small place usually develops into a second rate rooming house, ill kept and unattractive; a place studiously avoided by the commercial traveller and other guests. In the small town the value of legitimate business becomes insufficient to support the undertaking. It is then that the temptation comes to descend to illegal practices with regard to liquor, and moral laxity creeps in.

On the other hand, the licensed hotel-keeper must obey the law and observe strictly the regulations laid down under that law. The house must be conducted in such a manner that it will be a credit to the community it serves. Its beer parlour supplies, in a legitimate way, the demand for the mild alcoholic beverage. The proprietor is made responsible for excesses. But the vast majority of such are moderate in their use of alcohol. The modest glass of beer has largely replaced the bottle of distilled spirits. This is shown in the Alberta Liquor Control Board's Annual Report for 1928.

The report of the Alberta Provincial Police for 1927, testifies to the social progress made in this Province under the present Liquor Act. The Inspector for "C" division, Calgary, has this to say in his 1927 report, on page 22—"Liquor Control Act".

"I am more than pleased to report that there has been a reduction of crime under this act, viz. 115 in 1927, as against 187 in 1926 and 229 in 1925. "Our present Liquor Control Act leaves a little room, if any, for criticism by the most ardent prohibitionists. We have the support and assistance of the very best citizens of the Province in bringing to our attention any infractions or violations of the Act.

"The manufacture of moonshine is carried chiefly in what is known as the 'dry belt', in the Eastern part of the district, and is chiefly made for home consumption.

"Liquor control was found to be unsatisfactory without the aid of beer by the glass in the province of Manitoba. Beer-rooms were established in that province recently. In Saskatchewan conditions are no unsatisfactory that a petition praying for the establishment of beer-rooms was signed by more than 70,000 people.

Commissioner Dinning in his annual report for 1927 says: "Since presenting its report for the year 1926, the Board is pleased to record that the general standard of hotel accommodation throughout the Province has been not only maintained, but in a great many instances materially improved."

Think what it means to own a SIX!

NOW Chevrolet affords you the opportunity to indulge your preference for six-cylinder performance... without going outside the price-range of the four.

And the Outstanding Chevrolet does more. It provides the distinctive authentic styling of Six, economy, reliability, finished in the season's smartest colorings. It offers a completeness and quality of appointments in keeping with its external beauty. And it gives you, in addition, the safety of sure, smooth four-wheel brakes, the easy-driving comfort of resilient, specially-designed shock-absorber springs and the dependability and economy for which Chevrolet is so justly renowned.

Let your Chevrolet dealer arrange a demonstration... and learn what it means to own and drive a SIX.

JUNE DIVIDEND PAYMENTS BY CANADIAN CORPORATIONS SET NEW HIGH FOR PERIOD

TORONTO—Dividend payments by Canadian corporations in the month of June will set a new high record for this period of the year and will place millions of dollars in the hands of the public for re-investment. A compilation of the securities listed in the closing days of the month of May, together with others that will be quoted in this manner early in June, indicates distributions aggregating \$24,575,660.

Included in the list are corporations representing all classes of industry. There are sixty-three industrial, public utility and mining corporations and financial institutions rewarding their stockholders at this time on twenty-two securities, both preferred and ordinary. The general trend from private concerns to publicly financed corporations is well illustrated by the growing list and many new and initial distributions are included in the June list.

A large number of the payments will be made in the early days of June, but there are also a large number that will not be made until the closing days of the month. July 1st, being a public holiday in the Dominion, many Canadian corporations that would otherwise make distributions for the first half and second quarter of the year in July have moved their dividend date on a few days to bring the distribution within the current month.

One factor that goes to swell the total for the month of June is the number of large corporations that make distribution at this period. The Canadian Pacific Railway, Canadian National Railway, Light and Power and International Nickel provide practically \$15,000,000 of the total.

Fifty-three industrial corporations will reward their stockholders to the extent of \$17,588,012. Sprinkled throughout are extras on bonuses, increased rates and initial dividends.

The month is also the occasion for the first disbursement on the shares of companies who have split their old stock into smaller units. In this category comes Imperial Oil, Loblaw Groceries and Hiram Walker-Gooderham and Worts, Ltd. Imperial Oil split was one of four for one with the new annual rate, 50 cents against a dividend and bonus in 1928 on the old stock of 82.

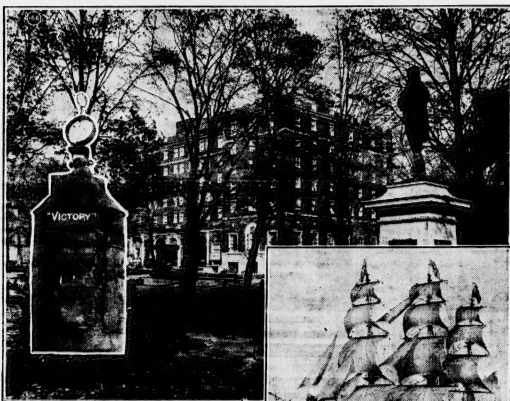

Loblaw Groceries and Walker-Gooderham and Worts have made no change in the equivalent rate. Loblaw stockholders received two shares of Class A and two shares of Class B stock of no par for each share of the old stock and both classes of new have been placed on an annual dividend basis of 50 cents against 82 on the old. Walker split was three for one and the dividend on the new is \$1 annually against \$3 on the old.

Five mines are making a distribution of close to four million dollars. International Nickel shareholders will receive \$2,751,841 of this total. Lake Shore is the next largest dividend payer this month with \$400,000. Hollinger dividend amounts to \$246,000, and next in order are Mining Corporation of Montreal.

Majority of the Canadian banks are included in the list this month, five of them paying dividends of \$275,000. Royal shareholders will receive \$800,000, and Montreal shareholders \$897,501. Commerce pays \$600,000, and Bank of Toronto and Canadian-Nationale each under \$200,000.

The Lord Nelson at Halifax

Citizens of Halifax take very justifiable pride in the fact that in bringing to fruition their dream of a new modern hotel, they have created a beautiful building which, while still too new to have many valued associations, has an atmosphere redolent of those days of grandeur when their city had its beginnings. The Lord Nelson, which recently opened, has a charm not usually associated with a modern institution of its kind and a decided traditional touch. The grill, for instance, is named the "Ward Room" and as one sees the sailor suited waitresses moving about the tables one half expects to hear the "Ship Ahoy" or "Light on the starboard bow." Lanterns help to foster the ship-board illusion, and one of these lanterns, pictured above, has very close associations with the sea. When Lord Nelson lay dying in the cockpit of H.M.S. Victory, while the great old ship heaved in the rollers off Cape Trafalgar on October 21, 1805, this lamp illuminated the scene as the doctors strove to save a life the loss of which was one of England's greatest.

A host of Nelson, an original from the Royal Naval Institute at Greenwich, and an exceptionally fine piece of work, stands in a corner of the lounge, facing a model of his flagship. In the main dining-

room, too, a very fine oil shows the admiral on deck and the men running up a signal of victory. The Lord Nelson is, however, a little more than an art centre. It is a very modern hotel of 200 rooms facing the Halifax Public Gardens. Its public and convention rooms are exceptionally well planned and appointed. The design is Georgian, simple and beautiful. While it has been built as the result of a community effort, the Nelson is owned by the hotel department of the Canadian Pacific Railway, which company has considerable interest in it. It will, therefore, compare very favorably in service and all essentials with the great Chateaux and other hotels of the company.

HEARD ON THE STREET

At an Irish election an interrupter called out: "You're a double-faced politician."

The candidate swiftly retorted: "You're not double-faced, for if you had another you would never have come here with that one."

Scotchmen don't smoke coriander cigarettes. They don't like the smell of the cork when it's burning.

In England a newly engaged girl gets a ring with a few precious stones in it. In Scotland she receives a ring with precious few stones.

Schoolboy Howlers

In 1651 Milton married his third wife and Paradise Lost "was completed."

"In John's reign England was blessed under an inherited and no titled, marriage, or death were permitted."

"The Five Mile Act forbade all ministers preaching within five miles of a congregation."

"Aaron was a good man who helped Moses with his conjuring tricks."

"Marcus Aurelius lived in a palace amongst luxuries and other temptations."

Constable Wallace: "Say, you, get going—what's the matter with you?"
Police Driver: "I'm just fine, thank you, but I think my engine's dead."

He was a practically penniless Irish lover. It was St. Patrick's Day in his hand he bore a pot of real old Shamrock.

"They were raised in the rich old cot of O'Connell," he said, as he presented the pot to Mary.

"Sure, now Murphy," cried his lady in delight, "how really sweet of ye it is! How perfect they are and how fresh. Sure, I do believe there's a little dew on 'em yet."

Murphy flinched slightly: "Begorra, I know there is," he confessed, "but praise heaven, it'll be paid tomorrow."

"Good evening, my young friend, as you attending a place of worship?" asked the minister when he met Jim Gannon on the street on Sunday evening.

"Yes, indeed, sir," Jim replied. "I'm on my way to see her now."

Dundee (By radiogram)—Angus Macintosh is held in the city jail charged with something one of the triplets born to his wife yesterday. His only explanation was that he could not afford to buy a bottle for the third child.

An Englishman dropped in on a football match in Scotland, and observing all twenty-two players in a strange huddle near the center of the field, turned to the Yankee sitting next to him.

"I say, has there been a serious accident?" he asked.

"You said it," snorted the Yankee. "they can't find the penny the referee tossed up."

A priest offered twenty-five cents to the boy who could tell him who was the greatest man in history.

"Christopher Columbus," answered the Italian boy.

"George Washington," answered the American lad.

"St. Patrick," shouted the Scotch boy.

"The quarter is yours," said the priest, "but why did you say St. Patrick?"

"Right down in my heart I know it was Moses," said the Scotch boy, "but business is business."

Jim Swanson: "I hear one of them new stenoys can take a bath and dress in five minutes."

Gertie: "Humph, that's nothing."

Jim Swanson: "Gosh, I'd like to see you do it."

Betty: "What did you have for lunch?"

Lik: "Oh, I had a double malted milk with an egg."

Betty: "Who was the egg?"

A traveling salesman died and went to his reward. Upon reaching his destination he drew out his well-thumbed address book and began to go through it.

"Gosh," he groaned aloud, "there ought to be some little girls I know in this book."

"No, that's the hell of it," Satan said over his shoulder.

A new and inexperienced hand in a heavy stable was set to grease the axle of a carriage. In a remarkably short time he reported the task finished.

"Look here," said the manager of the stable, "d'ye mean to say you've greased all four of them wheels already?"

"Well, sir," said the new hand, "I've greased the two front ones."

"And why haven't you greased the two hind ones?"

"I thought as long as the two front ones goes all right, the hind ones have got to follow!"

Little boy, don't you know what becomes of boys who use such bad language when they play marbles?

"Yes, they grow up and play golf like Ernie Whitehead. Your shot, Jimmy."

"Why don't you try Bill Tienney my tailor, old man?"

"Does he use good material?"

"I should say he does! Why, I had a suit that lasted almost up to the time I paid for it!"

Prood Goller: "They're all afraid to play me. What do you suppose my handicap is?"

Girl: "Oh, I don't know. It may be your face, or perhaps it's just your general appearance. Don't be discouraged."

W. N. Watson: "If a farmer has 14,000 pecks of potatoes, and he sells them for 20 cents a peck, what will he get?"

Vin: "A set of golf clubs, a radio, and a town car."

"I have a Corot, a Rubens, and a Rembrandt."

"As you really need more than two cars?"

"Is the manager in?"

"Yes, but he's taking dictation."

"Taking dictation?"

"Yes—over the telephone."

Customer: "And what's the steak like today?"

Pred Cott: "Tender as a woman's 'tart, sir."

Professor: "Ah, in that case I think I'll have half a pound of sausage."

A racing fan on the eve of the Coshmane races, entered the crystal gazing parlor of a Calgary seeress and handed her a five spot.

"I want the dope on tomorrow's race," he told her.

She studied the glass ball for a minute and then said: "Put all your money on Koko, that horse will surprise you."

The following day the gambler placed fifty on Koko. From his hotel that night, he looked up the seeress in the phone book and called her number.

"Hello?" came the voice over the wire.

"Are you the woman who peeps into a ball and sees things?"

"Yes, sir, what can I do for you?"

"Go take a peek and see what I'm calling you."

No, it wasn't Charlie Keeling Gues again.

"I bought a new car and gave up my piano player as first payment."

"I didn't know they accepted piano players as first payment on new cars."

Determined Lady: "Have that red light taken off the rear of the car, or I can't be interested in it."

Spence Hughes: "What's wrong with it?"

Determined Lady: "Why, anyone can see that it doesn't match the color scheme!"

Aunt Het says: "Pa asks the bleatin' right well most of the time, but he don't sound very convincin' when we have hash."

There were having a rubber of "domestic" bridge after dinner. Among the players were the host's grand mother and a French gentleman. After a few moments it became clear that the old lady had revoked, but in order to avoid a scene, her grandson assumed the blame and apologized profusely. A short time later the aged player again offended, whereupon the foreign guest bowed gallantly and said: "Madam, will you have a slice with me?"

Two girls were discussing the husbands they would like to marry.

"One thing is certain," said one emphatically, "I wouldn't marry a man that snored."

"Quite right, my dear," replied the other, "but how are you going to find out?"

THIS 80-YEAR-OLD VANCOUVER ATHLETE WON A PRIZE IN A WALKING MARATHON

(Special to the Standard)
(Copyright)

VANCOUVER, B.C.—To live 80 years is an achievement in itself. When people say of an octogenarian that "he seems to be possessed of all his faculties" they do so with flattering awe.

Such a remark about Major C. B. Fowler, of Vancouver, would be only realistic. There are men of 50 who merit that appraisal more than he. He is an athlete.

A Vancouver newspaper held an 11-mile walking marathon around Stanley Park recently. There were five classes, one of which was for men of 60 or more. Of the 70 entries in this veteran group, Major Fowler was much the oldest. He spotted his competitors from 9 to 19 years and finished fifth, winning a prize for his effort.

The winner of the open contest, a former champion of England, covered the course in 1:28. Major Fowler's time was 1:50, a minute less than two hours.

Six feet tall, slim, lithe, alert, his every movement as springy and light as that of a youth, Major Fowler was short on argument with a stranger if he claimed to be 20. Yet 80 years ago he was just concluding a decade of athletic competition on the cinder track.

At his first appearance in a meet of any consequence, in Leicestershire, he electrified the crowd by winning the 100-yard dash and the mile run. Gradually he developed into one of the best milers of his day in the hands, clipping off the distance in

fairly consistent 4:32, still considered good time in first class company. Born in County Cork he attended school and college in Ireland, but after being articulated to and joined he ran away at 17 and pitched the Dragon Guards.

His sidekick is covered with trophies of his prowess as an athlete. A Canadian and shot. In pre-Bible days he was a member of the Irish team at the international rifle meet at Wimbledon and for his individual score won the St. George's silver flag, a salver and a purse of gold. During the Boer war, debarré by his age from overseas service, he was employed by the regular army as a musketry instructor.

His last race prior to the Vancouver marathon was at Cardiff. It was a 20-mile walking contest open to all comers. He was then 53 years old, but in a field of 87 he finished fifth, by an odd confidence, in that race also.

LARGE CROP LOW PRICES
What prices last Thursday dropped five cents a bushel. On Tuesday they rose six and seven cents a bushel. There were some special technical explanation in each case, but basically the market seems to be trying to find its proper level under extremely bearish conditions. Every sign appears to point toward low prices, though the market seems to be trying to find its proper level under extremely bearish conditions. Every sign appears to point toward low prices, though the market seems to be trying to find its proper level under extremely bearish conditions.

CROCODILE TEARS NOT NEEDED BY CANADIAN WHEAT POOL
(Copyright)

TOBACCO.—If you have tears to shed, prepare to shed them now. But be sure you do not waste your sympathies where they are not needed. And, if what the market is whispering be true, then it is a sure bet that the Canadian wheat pool, over which a few crocodile tears have been shed, is not at all in need of them, and is, in fact, inclined rather to sit back and smile at such sentimental sympathy.

It is said indeed by those who know a little of what has been going on in the wheat markets, that amid the gloom of the winter wheat outlook, sentiments, crashing and tumbling of wheat values which have been daily scenes in the big trading "pits" in the past few hectic weeks, that the "Pool" has been sitting pretty, its surface as placid and unruffled as a well ordered pool should be and as its name implies.

From certain "reliable sources" it is learned that "away back in the days of higher prices"—that is to say, a couple of months or so ago, when May wheat was selling around \$1.35, the "pool" was selling freely, and that the closing of this month will see their May wheat practically liquidated. Be this a fact or not, for the pool will have but a comparatively small "carry over" at the end of the season.

During the recent congestion and shock of wheat vessels coming down the lakes, when it was reported that as many as 75 vessels lay in the harbor of Montreal unable to unload their wheat, and when at the same time the rest of Argentine wheat in the Liverpool market almost went up to the export of wheat from Canadian and American ports, we have it on the authority of a high official of the "Pool" who is "continuing to do a normal business through both Pacific and Eastern ports."

Commenting on the wheat situation, and quoting Mr. E. B. Ramsay, manager of the Central Agency, the "Western Producer" says: "The Pools are not worrying. They have conducted their operations on a safe margin." And goes on to say: "In what was probably the most difficult marketing year since Canada became a factor in the export trade, they have already paid a price per bushel much higher than the average previous price. They have not been stampeded by the pressure of farmers' heavy initial and interim installments than the peculiar situation surrounding them. Although the price this year is not as high as in former Pool years and although the final payment cannot be expected to be as sterling, it is generally realized that it was in this year that the Pool did its best work. A little reflection will serve to show that it actually saved the wheat-growing farmer, whether he was in the Pool or outside, from a very definite disaster."

From all of which, it is evident that the "Pools" are neither asking for, nor needing the sympathies of anyone, in the present trying times. But what about certain other interests "outside the Pools"? Judging from the daily despatches of losses from the rest of war "across the border," and notably from the city of Chicago, there has of late been a little need of a good deal of sympathy, and of help of some sort, "farm relief" or what not.

THE KING EDWARD HOTEL

The place where we want you to feel at home.

We endeavour to please and aim to give Service and Courteous Treatment

FRANK MILLER, Proprietor

Seldom have changes "come over the scene" so rapidly and in such quick succession as have been seen in the tone and "sentiment" of the market in the past week.

Opening the week in a bad fit of the doldrums, Chicago traders on Monday plunged the May wheat option down to below the dollar mark, which up till then had been more or less a mythical sort of a figure, having some relation to an existence somewhere about the year 1915. Several times of late had the market been forced down dangerously close to the dollar, but on each occasion succeeding in coming to the surface again.

On Monday, however, a more than usually determined "bear" attack forced Miss May's head well under. To accomplish this "objective" advantage was taken of "scattered showers" and at one or two points, good heavy rains, in Saskatchewan and Alberta. This timely appearance of "moisture" was deemed sufficient to avert possible disaster to Canadian crops, which, when suffering from serious "lack of moisture" a week suddenly made promise of another record crop year.

The alleged huge supplies of "carry overs" from the 1928 U.S. crops, were again well advertised to a warring world, and as a logical result of said advertising, prices tumbled to the lowest points in many years.

After sending the July option down the following day, to keep company with May, Chicago market "leaders" suddenly adopted other tactics, and by the middle of the week were talking of a revived export demand, with over three million bushels a day going out. Under this new stimulus, markets made a moderate rally, but things were looking brighter. This state of affairs lasted but a day, and again the market plunged to still lower depths of gloom and despair.

All of which seems to indicate that somebody has become nervous, and high strung, jumping quickly from one extreme to another.

Wherever this "somebody" is, may certainly be in need of your sympathy and support. But just as clearly, that "somebody" is not the Canadian Wheat Pools.

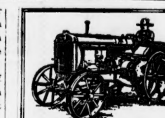

ARDENODE

The U.P.W.A. held their June meeting at the "home of Mrs. E. D. J. J. The usual order of business was observed, and Mrs. Emerson's report on the recent Bylaw Clinic was presented to the members.

In connection with the Clinic, Mrs. C. O. Dawson read an address on Child Welfare by Mrs. E. E. Wyman. Plans were discussed for a picnic in the near future. Arrangements were completed for a meeting at the Senior High School on June 26th, when Mrs. A. H. Warr, President of the U.P.W.A. and Mrs. J. C. Buckley, will be the speakers. A hearty invitation is extended to all. The delegate elected for the Standard Convention was Mrs. George Dawson.

The hostess and a delicious tea. Pianoforte selections by Mrs. Norman Scheer were greatly enjoyed by all. Everybody left feeling the afternoon had been a most profitable one and that they can be relaxed early in the fall.

Local music lovers, who are interested in the musical advancement of the district are invited to communicate with Archibald Key, Editor of the Drumheller Mail, who is acting as secretary for the time being.

Be A Power Farmer

Government surveys show that tractor:

Save Time
Save Hired Help
Increase Profits

A tractor on your farm will do all this—and make your work much easier besides.

TWIN CITY TRACTORS

The Twin City is the most durable tractor on the market. On many farms ten-year-old Twin City Tractors are still doing good work, and have high resale value.

Come in and see the Twin City.

ASK FOR DELEGATE TO REPRESENT TOWN ON FESTIVAL BODY

Acting on the suggestion of officials of the Alberta Musical Festival Association a District Festival Committee was organized on Thursday last in Drumheller, when it was decided to make preparations for a District Festival early in 1930. W. W. Gillespie, choir leader and organist of Knox choir, Drumheller, was elected President and a number of provisional committees were established.

To make the Festival Committee fully representative of the provincial district are anxious to have Strathmore district select a member for this body as it is their intention to invite senior and junior choral organizations, instrumental groups and individuals to compete in the various classes.

A further meeting of the Musical Festival committee will be held in Drumheller on Thursday next, June 20th, when the question of preparing a syllabus will be discussed following a report by the Syllabus Committee who are sketching a rough outline to be submitted. The syllabus will be composed of a number of contests so that they can be relaxed early in the fall.

Local music lovers, who are interested in the musical advancement of the district are invited to communicate with Archibald Key, Editor of the Drumheller Mail, who is acting as secretary for the time being.

CANADIAN EDUCATION

Toronto.—Slim, blonde and charming, Mile. Bevilin, the Croatian girl who nursed Jugo-Slavia's peasant leader, Radich, back to health when he was shot down by a political opponent, is in Canada on an educational mission. The attempted assassination of the popular idol of his people, during a governmental crisis, plunged the country into momentary panic and Nurse Bevilin's skillful care of the leader made her a national heroine. Superintendent of nurses at Belgrade, she was sent to study public

Tricoma, Alberta.

health methods in other countries and, for that purpose, is spending several months at the University of Toronto, following similar investigations in England and the United States. Of conditions in her native country, she paints a glowing and optimistic picture. Illiteracy is disappearing, prosperity is increasing and the population of Belgrade alone has nearly quadrupled since the war. Religious opinions are divided but religious differences, as such, non-existent.

"We are backing," she asserts happily, "in the sunshine of a new life." Toronto, Ont.—Worth "20,000 quid" George Westbury, of Ansett, England, who arrived in Canada with two pounds to make another fortune and rather than cable home for more money will put a shot through my head."

This enterprising Britisher, who came out on the Empress of Australia, declares "I've come to Canada to prove to England's undernourished classes that a man of pluck and determination can make good in the Dominion."

Westbury has a brother, Richard, in British Columbia. Rather than go westward at once the newcomer is set upon securing work in Toronto and later proceeding to the coast on an observation tour. He is interested in rubber developments, and will ultimately purchase a rubber plantation and bring to Canada his wife and children," he declares.

CANADA IS FIRST CHOICE**OF EMIGRATING BRITISHERS**

OTTAWA, Ont.—Canada has always been the favorite Dominion for the outgoing Britisher. When the man of the Old Land decides to seek his fortune in new fields, the land of the Maple Leaf is his first choice.

Close analysis of immigration figures reveals this beyond a doubt. Last year, the British Government has announced, more than half the emigration from the Mother Country was to Canada. In actual numbers, there was a notable increase. An army of 54,708 Britishers came to this country.

By comparing the statements of British and Canadian officials on an interesting sidelight is thrown on the current trend of immigration. The British figures, just quoted are for the calendar year. The Canadian figures, for the fiscal year ending three months later, show a total of 58,880 newcomers. In other words, the number of recent arrivals is on the increase.

Figures for April are not yet compiled but the indications are that they will show even more improvement.

Canada not only remains the chosen spot of the British settler, but, at the present time, attracts large numbers as well as a high percentage of those who are emigrating.

"Ottawa Immigration authorities supplement the figures for the last year by statements that this country always gets more settlers from the United Kingdom than do Australia and New Zealand combined. There have been times when the Canadian total has been greater than that of all other Dominions."

In any case, the Canadian figure bears a direct ratio to the number leaving the Mother Country. When there is a large volume of emigration,

Canada's share increases proportionately. When it is small, it drops off.

Since the war, the numbers have been growing steadily. In 1920 and 1921, the first normal post-war years, the figures were 50,603 and 71,242. The sudden increase was largely caused by an influx of wives and families of Canadian soldiers who had married while overseas. The record low mark was in 1918 when the figure was only 3,178, but it showed an immediate increase, the year following, to 5,514. For 1925, the British settlers numbered 27,587; increasing in 1926, to 60,278 and in 1927 to 51,552. The figure of 58,880, just announced by Hon. Robert Furber, is for the twelve month period ending on March 31st last and shows a continuance of this highly satisfactory growth.

Since the war, the numbers have been growing steadily. In 1920 and 1921, the first normal post-war years, the figures were 50,603 and 71,242. The sudden increase was largely caused by an influx of wives and families of Canadian soldiers who had married while overseas. The record low mark was in 1918 when the figure was only 3,178, but it showed an immediate increase, the year following, to 5,514. For 1925, the British settlers numbered 27,587; increasing in 1926, to 60,278 and in 1927 to 51,552. The figure of 58,880, just announced by Hon. Robert Furber, is for the twelve month period ending on March 31st last and shows a continuance of this highly satisfactory growth.

Canada's share increases proportionately. When it is small, it drops off.
